

**STScI** | SPACE TELESCOPE  
SCIENCE INSTITUTE

March 16, 2022

To TESS Cycle 5 Program:

I acknowledge on behalf of the Mikulski Archive for Space Telescopes (MAST) that MAST will host a publicly accessible dataset as described in the proposal entitled “TESS LEGACY IN THE MAKING: AN EXTENDED CENSUS OF ECLIPSING BINARY STARS” with PI Dr. Andrej Prsa.

This is a sufficiently small addition compared with our total data volume, and is similar enough in scope and complexity, that we are not requesting additional funding from the grant to support the data archival efforts.

Yours truly,

Joshua E. G. Peek  
MAST Principal Investigator  
Space Telescope Science Institute
